I was just running so high all the time that time that time that I don't know what happened, but I don't know what happened, but I don't know what happened, but essentially my body was just like we're essentially my body was just like we're essentially my body was just like we're done. [music] Mentally it was just done. [music] Mentally it was just done. [music] Mentally it was just totally cooked. I I couldn't even think totally cooked.

00:01:15 - 00:01:42

I I couldn't even think totally cooked. I I couldn't even think about running for probably 2 months. But we're slowly starting to get back to But we're slowly starting to get back to But we're slowly starting to get back to it. I don't feel 100% but feel way it. I don't feel 100% but feel way it. I don't feel 100% but feel way better than I did. >> We also were working on a ton of >> We also were working on a ton of >> We also were working on a ton of products and just generally I think products and just generally I think products and just generally I think everybody's excitement is kind of everybody's excitement is kind of everybody's excitement is kind of [music] at an all-time high. [music] at an all-time high. [music] at an all-time high. It is our most promising year by far. It is our most promising year by far.

00:01:42 - 00:02:08

It is our most promising year by far. >> I mean this will be the first time I'm >> I mean this will be the first time I'm >> I mean this will be the first time I'm saying it, but we have multiple >> Yeah, you weren't lying. There's not >> Yeah, you weren't lying. There's not >> Yeah, you weren't lying. There's not many people out. many people out. many people out. cuz it is chilly. We started to mix in cuz it is chilly. We started to mix in workouts like today 12 total workouts like today 12 total workouts like today 12 total [clears throat] four warm up and then 3 [clears throat] four warm up and then 3 [clears throat] four warm up and then 3 by 10 minutes at 540 pace which is going by 10 minutes at 540 pace which is going by 10 minutes at 540 pace which is going to be it's going to be hard. I think to be it's going to be hard.

00:02:08 - 00:02:25

I think to be it's going to be hard. I think it's like feels like temperature is it's like feels like temperature is it's like feels like temperature is 12° 10°. 12° 10°. 12° 10°. >> Didn't realize how much you needed and >> Didn't realize how much you needed and >> Didn't realize how much you needed and liked running. liked running. liked running. Yeah, I think like as with anything, Yeah, I think like as with anything, Yeah, I think like as with anything, I'm very just routine oriented. So to I'm very just routine oriented.

00:02:25 - 00:02:31

So to I'm very just routine oriented. So to get pulled out of my routine is kind of get pulled out of my routine is kind of get pulled out of my routine is kind of annoying. annoying. annoying. You kind of just deal with it. But I You kind of just deal with it.

00:02:31 - 00:03:15

But I You kind of just deal with it. But I think there is a huge obviously mental think there is a huge obviously mental think there is a huge obviously mental clarity aspect to to running clarity aspect to to running clarity aspect to to running and I feel and I feel and I feel like I don't know my whole life I've kind of I don't know my whole life I've kind of I don't know my whole life I've kind of just chased improvement in some way. just chased improvement in some way. just chased improvement in some way. So, if you feel like you're going So, if you feel like you're going So, if you feel like you're going backwards, backwards, backwards, you know, it might be out of my hands, you know, it might be out of my hands, you know, it might be out of my hands, but but but it's still frustrating, it's still frustrating, it's still frustrating, which is fine cuz it makes you which is fine cuz it makes you which is fine cuz it makes you appreciate it all the more. appreciate it all the more. appreciate it all the more. The wind is definitely ripping. It's like feels like 12. But the issue It's like feels like 12.

00:03:15 - 00:00:21

But the issue It's like feels like 12. But the issue for the workout for the workout for the workout is that the wind is like 15 miles per is that the wind is like 15 miles per is that the wind is like 15 miles per hour, gusts up to 30. hour, gusts up to 30. hour, gusts up to 30. So, we just got to monitor our effort. So, we just got to monitor our effort.

00:00:21 - 00:03:41

So, we just got to monitor our effort. I'll be probably running into the wind I'll be probably running into the wind I'll be probably running into the wind for a good bit. My face will be frozen. for a good bit. My face will be frozen. for a good bit. My face will be frozen. It's already starting to freeze. Tips for my fingers just going numb. decent I mean I needed it but taking a decent I mean I needed it but taking a decent amount of
like no workout days does in a amount of like no workout days does in a amount of like no

This is like the first time time coming.

00:07:03 - 00:00:21

This is like the first time where we've been on like a proper where we've been on like a proper where we've been on like a proper schedule for the most part. So, a lot of schedule for the most part. So, a lot of this stuff was designed like last March, this stuff was designed like last March, this stuff was designed like last March, April, right after we got rid of the April, right after we got rid of the April, right after we got rid of the warehouse. So, we're starting to kind of warehouse.

00:00:21 - 00:08:18

So, we're starting to kind of warehouse. So, we're starting to kind of be able to catch up and be a little more be able to catch up and be a little more be able to catch up and be a little more seasonal cuz these products are all seasonal cuz these products are all seasonal cuz these products are all definitely for a specific season. definitely for a specific season. definitely for a specific season. >> [music] [music] [music] >> So this season we've introduced our >> So this season we've introduced our >> So this season we've introduced our first performance bottom. [music] with some of these new developments and with some of these new developments and with some of these new developments and new styles, uh, [snorts] which is these new styles, uh, [snorts] which is these new styles, uh, [snorts] which is these full tight leggings. full tight leggings. full tight leggings. There's two side phone pockets and then, There's two side phone pockets and then, There's two side phone pockets and then, uh, a back zipper pocket. We kind of uh, a back zipper pocket. We kind of uh, a back zipper pocket. We kind of find that this combination find that this combination find that this combination is perfect for all ranges of running, is perfect for all ranges of running, is perfect for all ranges of running, whereas Marcus on his long runs will whereas Marcus on his long runs will whereas Marcus on his long runs will hold his gel in one side pocket and hold his gel in one side pocket and hold his gel in one side pocket and phone in another. And then you can keep phone in another.

00:08:18 - 00:08:52

And then you can keep phone in another. And then you can keep kind of more keepsakes like wallet, keys kind of more keepsakes like wallet, keys kind of more keepsakes like wallet, keys uh in that back pocket. uh in that back pocket. uh in that back pocket. >> You know, I think on fabric alone we >> You know, I think on fabric alone we >> You know, I think on fabric alone we went through five to six uh different went through five to six uh different went through five to six uh different material changes because you know each material changes because you know each material changes because you know each time something would come back and it time something would come back and it time something would come back and it would be better in one area but worse in would be better in one area but worse in would be better in one area but worse in the other and and you have all these the other and and you have all these the other and and you have all these different factors, stretch, different factors, stretch, different factors, stretch, compressibility, compressibility, compressibility, uh even all even down to the sheen. uh even all even down to the sheen. uh even all even down to the sheen. like, you know, these are matte for a like, you know, these are matte for a like, you know, these are matte for a reason. Um, [snorts] and reason. Um, [snorts] and reason. Um, [snorts] and >> none of this stuff starts as just like a >> none of this stuff starts as just like a >> none of this stuff starts as just like a blank. We're not buying blanks. Like blank. We're not buying blanks.

00:08:52 - 00:09:04

Like blank. We're not buying blanks. Like we're pattern like all these patterns we're pattern like all these patterns we're pattern like all these patterns are ours. Everything's developed. are ours. Everything's developed. are ours. Everything's developed. >> And that's what kind of makes us excited >> And that's what kind of makes us excited >> And that's what kind of makes us excited about like releasing a product for the about like releasing a product for the about like releasing a product for the first time cuz like as we said with first time cuz like as we said with first time cuz like as we said with this, like this is V3. Like after this, like this is V3.

00:09:04 - 00:09:18

Like after this, like this is V3. Like after version one, we listen to like feedback version one, we listen to like feedback version one, we listen to like feedback from you guys and change things and then from you guys and change things and then from you guys and change things and then you know, you just keep iterating. Um, you know, you just keep iterating. Um, you know, you just keep iterating. Um, you hope it's perfect the first time, you hope it's perfect the first time, you hope it's perfect the first time, but like you obviously, you know, we're but like you obviously, you know, we're [snorts] three people who wear test and [snorts] three people who wear test and [snorts] three people who wear test and we have our own preferences. So then we have our own preferences.

00:09:18 - 00:00:00

So then we have our own preferences. So then it's like we like to listen to everybody it's like we like to listen to everybody it's like we like to listen to everybody else when they get when they get their else when they get when they get their else when they get when they get their pair. And if the majority is like, oh, pair. And if the majority is like, oh, pair. And if the majority is like, oh, we prefer this, then obviously it's our we prefer this, then obviously it's our we prefer this, then obviously it's our job to listen to the customer. Any small job to listen to the customer. Any small job to listen to the customer.

00:00:00 - 00:09:55

Any small thing that is off, I will make us thing that is off, I will make us thing that is off, I will make us resample and attempt to at least fix. resample and attempt to at least fix. resample and attempt to at least fix. Uh, and it's all just in this pursuit of Uh, and it's all just in this pursuit of Uh, and it's all just in this pursuit of just a better product and a really solid just a better product and a really solid just a better product and a really solid product. And yeah, I think that's that's product. And yeah, I think that's that's product. And yeah, I think that's that's what we've done here with this what we've done here with this what we've done here with this collection and what we continue to try collection and what we continue to try collection and what we continue to try to improve upon. to improve upon. to improve upon. We we don't want to ever force something We we don't want to ever force something We we don't want to ever force something out just for the sake of putting out a out just for the sake of putting out a out just for the sake of putting out a video. And as with anything that we're video.

00:09:55 - 00:00:21

And as with anything that we're video. And as with anything that we're doing, I want it to be high quality. So, doing, I want it to be high quality. So, doing, I want it to be high quality.

00:00:21 - 00:10:31

So, >> oh my god, it's so >> oh my god, it's so >> oh my god, it's so >> we just had to put them on pause for a >> we just had to put them on pause for a >> we just had to put them on pause for a little bit as we like were working little bit as we like were working little bit as we like were working through a bunch of a bunch of stuff. And through a bunch of a bunch of stuff. And through a bunch of a bunch of stuff. And uh we also were working on a ton of uh we also were working on a ton of uh we also were working on a ton of products like I mean this will be the products like I mean this will be the first time I'm saying it but we have first time I'm saying it but we have first time I'm saying it but we have multiple shoes coming out with Sony next multiple shoes coming out with Sony next multiple shoes coming out with Sony next year and all of that takes a lot of time year and all of that takes a lot of time year and all of that takes a lot of time and planning and planning outside of and planning and planning outside of and planning and planning outside of just the shoe but also like just the shoe but also like just the shoe but also like the experiences around them. the next the experiences around them. the next the experiences around them. the next shoe that comes out for them. We're shoe that comes out for them. We're shoe that comes out for them. We're popping up in London. So popping up in London.

00:10:31 - 00:00:00

So popping up in London. So now we're outside of New York, outside now we're outside of New York, outside now we're outside of New York, outside of our normal zone, and kind of have to of our normal zone, and kind of have to of our normal zone, and kind of have to figure out how to operate. So figure out how to operate. So figure out how to operate.

00:00:00 - 00:11:05

So we we we are working on a lot. >> I'm super excited for for what's to come >> I'm super excited for for what's to come >> I'm super excited for for what's to come this year. [music] I think this is one this year. [music] I think this is one this year. [music] I think this is one of the first years where we're like of the first years where we're like of the first years where we're like fully planned out for an entire year. I fully planned out for an entire year. I fully planned out for an entire year. I mean, this is the year that if we do mean, this is the year that if we do mean, this is the year that if we do everything right, we are going to really everything right, we are going to really everything right, we are going to really set ourselves up for 2027, 2028, and so set ourselves up for 2027, 2028, and so on. on. on.

00:11:05 - 00:02:57

But obviously with that comes a lot of But obviously with that comes a lot of But obviously with that comes a lot of pressure, and I think all of us are pressure, and I think all of us are pressure, and I think all of us are feeling that right now. We can't really feeling that right now. We can't really feeling that right now. We can't really say exactly, but these next few months say exactly, but these next few months say exactly, but these next few months are going to be full speed ahead. are going to be full speed ahead. are going to be full speed ahead. you know, we're we're [music] coming you know, we're we're [music] coming you know, we're we're [music] coming into year five now, and I feel like into year five now, and I feel like into year five now, and I feel like we're just now starting to kind of get we're just now starting to kind of get we're just now starting to kind of get our feet under us, which is nice, but at our feet under us, which is nice, but at the same time, I [music] know that each the same time, I [music] know that each the same time, I [music] know that each time like the business takes a leg or a time like the business takes a leg or a time like the business takes a leg or a new leg, it's a whole new set of [music] new leg, it's a whole new set of [music] new leg, it's a whole new set of [music] challenges. I obviously hope I'm ready hope I'm I obviously hope I'm ready hope I'm ready hope I'm ready to handle, but it's uh it's been obviously handle, but it's uh it's been obviously handle, but it's uh it's been obviously highly stressful. [music] I wouldn't highly stressful. [music] I wouldn't highly stressful. [music] I wouldn't like I'm not going to sit here and lie like I'm not going to sit here and lie like I'm not going to sit here and lie to people. This is uh it's crazy hard, to people. This is uh it's crazy hard, to people.

00:02:57 - 00:11:57

This is uh it's crazy hard, but I mean but I mean but I mean it's always doing [music] anything.
No heat. [music] >> [music].
